

## **IKB successfully completes the ECB's comprehensive assessment**

[Düsseldorf, 26 October 2014] Today the European Central Bank (ECB) published the final results of its comprehensive assessment, a Europe-wide, multi-stage review of 130 European banks. The ECB's aim was to conduct a rigorous investigation of banks' balance sheets before it assumes responsibility for uniform banking supervision in the euro zone on 4 November 2014. IKB successfully completed the comprehensive assessment but will not be monitored directly by the ECB from 4 November 2014.

IKB already more than fulfilled the capital requirements for the asset quality review, the baseline scenario and the adverse scenario of the stress test on the basis of the common equity tier 1 capital (CET 1) available as at 31 December 2013. Furthermore, IKB in the meantime has increased its CET 1 capital by more than € 190 million since 31 December 2013.

*IKB Deutsche Industriebank AG supports small and medium-sized enterprises in Germany and Europe with loans, risk management, capital market services and advisory services.*
